Re: Former Sasol North America Inc./Leander Independent School District Facility
12024 Vista Parke Drive, Austin, Texas
TCEQ SWR No. 39312
EPA ID No. TXD987987914

Dear Mr. Ledvina:

In a letter dated November 14, 2007, the Texas Commission on Environmental Quality (TCEQ) requested that Sasol and the Leander Independent School District (LISD) install at least one groundwater monitoring well at the above referenced facility. In a letter dated January 15, 2008, the TCEQ provided the general well specifications and analysis required for the groundwater sample to be collected from that monitoring well.

This letter is to inform you that the TCEQ has received a letter dated February 6, 2008 from Mr. Steve Morton, on behalf of the LISD, indicating that the LISD will agree to drill and sample the well requested by the TCEQ.

In the event that the groundwater has been impacted, additional assessment and a response action to address the contamination will be required. To that end, the TCEQ would request Sasol the former operator and the entity that may have caused the release to conduct the additional assessment and any response action required by the TCEQ. If Sasol does not comply with all TCEQ directives, the issue may be referred to the TCEQ Enforcement Division for a formal enforcement action.

Mr. Ledvina
